FLATWARE

USE & CARE OF AUENBERG FLATWARE

AUENBERG Flatware are produced with fine stainless steel which have high resistance to corrosion & rust. Provided with proper use & care, they can last their shine for years. Please observe below advice.

1. Wash immediately after use.
2. Use neutral or slightly alkaline detergents.
3. Do not rub them with abrasive products, metal or synthetic wool.
4. Dry piece by piece with a soft and absorbing cloth immediately after washing.
5. Allow to dry completely & store in a cool & dry place eg., drawer.

Note : the content of metals & minerals naturally existed in tap water varies greatly from place to place. These metals & minerals in water drops left on the surface of washed cutlery, especially knife, will be oxidized in open air, taking hours to form permanent stains or water marks. The best way to prevent is to dry the cutlery & knife with a soft and absorbing cloth immediately after washing - no matter manual wash or machine wash.

CHAFING DISH
80E SERIES

304 STAINLESS STEEL

NEW

80E SERIES HYDRAULIC / DAMPING INDUCTION CHAFING DISH

■ NEW SERIES CHAFING DISH IN 2020

- Heat source like induction plates, electrical warmer and sterno are all suitable.
- Detachable hydraulic hinged system
- Detachable adapter bar
- Water pan with handle option which you can take it as a pot or a chafing dish

■ REMOVABLE COVER

easy for cleaning and storage

■ WATER PAN: MATERIAL STAINLESS STEEL SS443 (21CT)

- High thermal conductivity, evenly heating.
- high cost performance,
- But it has the same corrosion resistance as 304.

Boiling water test:

Temperature	Time	5mins	15mins	25mins	30mins
SS304 water pan		40?	59?	77?	87?
SS443(21CT) water pan		41?	60?	80?	90?
